MOTORBOAT STANDS

Our motorboat stands are certified to a safe working load of 20,000 lbs. (9,100 kgs). In almost 70 years, **a Brownell stand has never failed.**

Both our traditional blue painted finish or hot-dipped galvanized stands offer long-lasting durability. Our adjustable stands feature a precision-cut Acme threaded, solid steel center rod for easy adjustment even under load, and a vertical base **with a top that swivels to 25-degrees** to fit most hull shapes.

All motorboat stands are available in painted or hot-dipped galvanized finish.

**WHEN NOT IN USE,
THE MOTORBOAT
STANDS STACK NEATLY
FOR STORAGE.**

"With 4 acres of yard space I have purchased thousands of Brownell boat stands. They are tough, sturdy, reliable and made in the USA. They are the only stands I trust to protect my customers' boats."

Howard D. Bean

North Harbor Diesel & Yacht Service Inc.
Anacortes, WA

MB4
2' MOTORBOAT STAND

- Height: 18" - 25"
(46 cm - 64 cm)
- Weight: 27 lbs. (12.3 kgs)

- All stands also **available in galvanized** by adding "G" to the end of the part number, e.g., **MB2G**
- **Bases can be purchased separately** by adding "BASE" to the end of the part number, e.g., **MB2BASE**. Subtract 4" from min height.
- All stands **available with a V-top** by adding "V" to the end of the part number, e.g., **MB2V**

MB3
2.5' MOTORBOAT STAND

- Height: 25" - 38"
(64 cm - 97 cm)
- Weight: 36 lbs. (16.3 kgs)

MB2
3' MOTORBOAT STAND

- Height: 29" - 46"
(74 cm - 117 cm)
- Weight: 43 lbs. (19.5 kgs)

MB1
3.5' MOTORBOAT STAND

- Height: 33" - 50"
(84 cm - 127 cm)
- Weight: 47 lbs. (21.3 kgs)

MBO
4' MOTORBOAT STAND

- Height: min. 41" - 58"
(104 cm - 142 cm)
- Weight: 55 lbs. (25.0 kgs)

MBOX
5' MOTORBOAT STAND

- Height: 54" - 72"
(137 cm - 183 cm)
- Weight: 68 lbs. (30.8 kgs)

MBOXX
6' MOTORBOAT STAND

- Height: 67" - 84"
(170 cm - 213 cm);
- Weight: 81 lbs. (36.7 kgs)

MEGA MOTORBOAT STANDS

Introducing our 25-ton beauty to keep large yachts and commercial vessels safe. Using the **Brownell 7 Standards of Quality**, this rugged steel constructed boat stand has a safe working load of **25 tons**, so order now and keep large yachts and commercial vessels safe. Use with **KB12** or **KB50** keel bench.

All Brownell Boat Stands come with a Lifetime Warranty. In almost 70 years, a Brownell stand has never failed.

"We store lots of boats and some are very large. Safety is important to us. Brownell Boat Stands is the only brand that we trust. They last forever and have never let us down."

Jimmy Correia

Newport Shipyard, Newport, RI

- SWL 50,000 lbs. (22,680 kgs)
- Adjustable Height: 3 positions -
31", 38" and 45"
- Base dimensions: 22" x 30"
- Weight: 182 lbs. (83 kgs)
- Hot-dip galvanized

SAILBOAT STANDS

All Brownell Boat Stands come with a Lifetime Warranty. In almost 70 years, a Brownell stand has never failed.

Our sailboat stands are certified to a **safe working load of 20,000 lbs. (9,100 kgs)**, and are built with a 23-degree angled base for better support against sailboat hulls. Between the angled base and the swivel top, the pad can go from parallel to the ground to 45-degrees, thereby having the ability to safely support virtually any boat. A chain must be used to connect the stands across the width of the boat (port to starboard) using the slot welded to the base. Additionally, it is recommended to utilize a stand with a V-Top at the center line towards the bow to prevent the boat from tipping forward on its keel.

"At Balboa Boat Yard we are committed to craftsmanship and tradition. That is why we only buy Brownell Boat Stands. They are built to last and provide safe storage that we can trust."

Pat Werner

Balboa Boat Yard
Newport Harbor, CA

WHEN NOT IN USE, THE SAILBOAT STANDS NEST NEATLY FOR STORAGE.

SB4 3' SAILBOAT STAND

- Height: 24" - 36"
(61 cm - 91 cm)
- Weight: 35 lbs. (15.9 kgs)

SB3 4' SAILBOAT STAND

- Height: 35" - 52"
(52 cm - 132 cm)
- Weight: 49 lbs. (22.2 kgs)

SB2 5' SAILBOAT STAND

- Height: 46" - 65"
(117 cm - 165 cm)
- Weight: 62 lbs. (28.1 kgs)

SB1 6' SAILBOAT STAND

- Height: 64" - 79"
(163 cm - 201 cm)
- Weight: 78 lbs. (35.4 kgs)

SBO 7' SAILBOAT STAND

- Height: 79" - 96"
(201 cm - 244 cm)
- Weight: 93 lbs. (42.2 kgs)

SB2XV 6' HYDRAULIC TRAILER BOW STAND

- V-Top
- Height: 64" - 79"
(162 cm - 200 cm)
- Weight: 78 lbs. (35.4 kgs)
- Long neck with narrow base. Used at bow in conjunction with hydraulic trailer

3/16" GALVANIZED SAFETY CHAIN

- Required to safely utilize sailboat stands.
- Available in bulk or by foot.

- All stands also available in galvanized by adding "G" to the end of the part number, e.g., **SB2G**
- Bases can be purchased separately by adding "BASE" to the end of the part number, e.g., **SB2BASE**. Subtract 4" from minimum height.
- All stands available with a V-Top by adding "V" to the end of the part number, e.g., **SB2V**

MAXI SAILBOAT STANDS

Safety carried to new heights.

Brownell's maxi sailboat stands are designed for very deep draft boats, and have been independently tested and are **certified to a safe working load of 20,000 lbs. (9,100 kgs)**. They are constructed and operate in the same manner as our more conventional stands. Because of their large size, a ladder is incorporated in the base in order to easily reach the top for adjustment. They fold flat for easy storage and transportation, and are easily assembled with supplied hardware. The use of a chain is crucial with the maxi stands, as well.

**THE UNIQUE DESIGN OF BROWNELL BOAT STANDS
ALLOWS BOATYARDS TO BE ABLE TO STORE MORE
BOATS PER SQUARE FOOT, ALLOWING THEM TO
MAXIMIZE SPACE AND INCREASE REVENUE.**

KEEL SUPPORT

Keel stands take most of the vessel's weight while it is out of the water, while boat stands are used for balancing and stability. Rather than stacking and cribbing wood blocks, keel stands are placed under the keel and quickly adjusted to the proper height, thereby saving labor and increasing efficiency and profit.

Brownell **keel benches** are also quick to install and provide robust support. When adjustment isn't required, keel benches are the best option for labor savings. With products rated from 10,000 lbs. (4,550 kgs) to 80,000 lbs. (36,400 kgs) these are ideal even for large recreational and commercial vessels.

Traditionally, **wood blocks** have been stacked and cribbed under boats' keels to bear the load. While this method is labor intensive, it is still widely used. Wood blocks are still the best option under a sailboat keel. Our wood blocks are cut from eastern pine and also available pressure treated for longer life.

PROPER USE

Make sure your entire team knows how to properly use our boat stands, keel stands, and accessories. **The Brownell Safety Training Program** teaches users best practices to safely block, support, and store all types of boats. Go to boatstands.com to sign up.

"We began using Brownell keel stands about 2 years ago mainly for boats under 50 feet in length. We started with 12. We now have about 30. They have helped us decrease the time to block the boats, resulting in an increase in efficiency and hauls per day. The stands are well made and easy to use. We would strongly recommend them."

BOAT RACKS

Brownell's Boat Racks are the simplest storage solution on the market, designed to safely store a boat for service or wash down.

Brownell boat racks are recommended for boats up to **20,000 lbs.** (9,100 kgs.) The bow rests on the flat bench and the stern is supported by two fixed pads creating a safe and stable platform. The high ground clearance in the taller "X" series makes hull waxing or bottom painting easier. They disassemble for storage and transportation.

The BR37 provides **four tops** to disperse load and protect the gelcoat and glass, with a minimal storage footprint. It is recommended to utilize two to three racks to best distribute the load.

"All Brownell Boat Stands, nothing but the best!"

- Height: 19" - 28" (48 cm - 71 cm)
- Weight: 67 lbs. (30 kgs)
- Acme-threaded to allow leveling of boat
- Painted finish
- Ideal for showroom, shows, and storage

BOAT DOLLIES

Boat dollies, sometimes called trollies, are one of the most useful pieces of equipment in the marine industry. They can be utilized to safely and professionally display boats in a showroom or boat show. They are also useful in maximizing the space in a workshop or storage facility, thereby maximizing profit. Brownell manufactures an extensive range of steel dollies for a broad range of boats including:

- Small craft and personal watercraft
- Pontoon boats
- Motorboats of various sizes up to 35,000 lbs. (16,000 kgs)

All Brownell dollies are made in the USA and feature high quality phenolic casters to roll smoothly and prevent marking floors. All surfaces in contact with the boat are padded to prevent slipping and marking the hull.

CHOOSE A DOLLY. CHOOSE THE BEST WHEELS.

PHENOLIC

Non-marking, Showrooms and other smooth floors
For this wheel, use standard part number, no suffix needed

METAL V-GROOVE

Production or assembly line
For this wheel, add V as a suffix to the part number

POLY ON METAL

Rough and uneven surfaces
For this wheel, add POLY as a suffix to the part number

SCD1
SMALL CRAFT/PWC DOLLY

- Capacity 2,000 lbs. (905 kgs) each
- Dimensions: 48" x 38" x 16" (140 cm x 97 cm x 41 cm)
- Weight: 85 lbs. (39.0 kgs)
- Wheel size: 4" x 2"

BD4
BUNK DOLLY

- Single Dolly safely supports a boat
- Maximum capacity 4,000 lbs (1,814 kgs)*
- Adjustable width 31" to 42"
- Recommended Bunk: 4" x 10", maximum length 8'
- Swivel casters with brakes
- Customer supplies wood

*Assumes using 4" x 10" bunks. Smaller bunks will reduce capacity.

BD2
BOAT DOLLY

- Capacity 8,000 lbs. (3,630 kgs) per pair
- Height: min. 15" - 21" (39 cm - 54 cm)
- Dimensions: 39" x 24" (99 cm x 61 cm)
- Weight: 84 lbs. (38.1 kgs)
- Wheel size: 6" x 2" with brakes

BD3
BOAT DOLLY

- Capacity 12,000 lbs. (5443 kgs) per pair
- Height: 29" - 33" (73.7 cm - 116.8 cm)
- Width: 51" - 77" (130 - 195 cm)
- Weight: 183 lbs. (83 kgs)
- Wheel size: 6" x 2.5" with brakes
- Optional 12' connector bar available #BD3BAR12

BD1
BOAT DOLLY

- Capacity 20,000 lbs. (9,100 kgs) per pair
- Width: 55" - 91" (138 cm - 221 cm)
- Height: 29" - 46" (73.7 cm - 116.8 cm)
- Weight: 272 lbs. (108.8 kgs)
- Wheel size: 8" x 2" with brakes
- Designed for keel loading

BDXL
BOAT DOLLY

- Capacity 35,000 lbs. (15,875 kgs) per pair
- Width: 12" x 136" (30 cm x 345 cm)
- Height: 31" x 42" (78 cm x 120 cm)
- Weight: 524 lbs. (238 kgs)
- Wheel size: 8" x 3" with brakes
- Options: BDXLTB - Tow Bar
- BDXLCK Connector Kit

SEE PAGE 19 FOR PONTOON DOLLIES

PONTOON PRODUCTS

Pontoon boats have never been more popular with customers. With this increase in popularity, these vessels are getting larger, costlier, and more elaborate, requiring quality dollies, racks, and stands to keep them safe. Brownell manufactures an extensive line of products to safely store or display pontoon boats. As well, Brownell products are constructed to enhance efficiency and safety in the workplace.

"Brownell Boat Stands are a must have for all boatyards in my opinion. We operate a yard with a 100 ton Travelift and we deal with vessel from 25 feet – 90 feet. We lift 500+ vessels per year of various types; using boat stands is a daily issue for us. We have tried most other brands of stands but we have found that the design and quality of the Brownell Boat Stands is superior and in our opinion the best in the market today. We also appreciate Brownell's continued effort to introduce a variety of innovative products for boatyards such as the staging ladders, boat lifting systems, engine handling systems etc which help to make our boatyard processes more efficient."

**PD2
PONTOON DOLLY**

- Capacity 2,000 lbs (905 kgs)
- Dimensions: 19" x 19.5" x 8" (48 cm x 50 cm x 20 cm)
- Weight: 32 lbs. (14.5 kgs)
- Packed two per box
- Wheel size: 4" x 2"

**PD2X
TALL PONTOON DOLLY**

- Capacity 2,500 lbs. (1,134 kgs)
- Dimensions: 19" x 19.5" x 19" (48 cm x 50 cm x 23 cm)
- Weight: 47 lbs. (21.3 kgs)
- Wheel size: 4" x 2"

**PD2B
PONTOON DOLLY**

- Same specifications as PD2, but has brake on all 3 casters.

**PD3
PONTOON DOLLY**

- Capacity 2,500 lbs. (1,134 kgs) each
- Dimensions: 24" x 32" x 17" (61 cm x 32 cm x 44 cm)
- Weight: 59 lbs. (27.0 kgs)
- Wheel size: 4" x 2"

**PVTOP
PONTOON V-TOP**

- Rod Length: 16" (41cm)
- Weight: 20 lbs. (9.0 kgs)
- Fits any motorboat stand base
- Dimensions: 16" x 6" (40 cm x 15 cm)

**K4V
KEEL STAND**

- SWL 20,000lbs (9,100 kgs)
- Safe storage close to the ground
- Height 16"-24" (41cm -61cm)
- Weight 25 lbs (11.3 kgs)

**BRB
BOW RACK**

- SWL 20,000 lbs. (9,100 kgs) each
- 28" x 24" x 30" (70 cm x 62 cm x 76 cm)
- Weight: 60 lbs. (27.2 kgs)
- Use with BRS41

**BRBX
BOW RACK TALL**

- SWL 20,000 lbs. (9,100 kgs) each
- 52" x 34" x 48" (132 cm x 86 cm x 121 cm)
- Weight: 128 lbs. (58 kgs)
- Use with BRS41X

BOAT LIFT SYSTEMS

Brownell manufactures several systems designed to safely and quickly remove a boat from a trailer. Each system carries a safe working load and is designed for safe operation by one or two people. Whether in the shop, in the yard, or at a boat show, a Brownell Boat Lift System can help you work more quickly and efficiently while keeping personnel and boats safe.

BL2 MANUAL BOAT LIFT

- Complete system to safely lift a boat up to 5,000 lbs. (2265 kgs)
- Two stands support the stern while the bow is lifted by a crossbeam connected to Acme threaded jacks
- Includes: 2 adjustable stern stands, two piece steel lifting beam, two adapters for flat or V hulls, two stands for lifting bow
- Accommodates trailers up to 103" wide
- Lifting range: 19" - 37" (61cm - 91 cm)
- Weight: 195 lbs. (88 kgs)

BLT4 TRAILER-MOUNTED BOAT LIFT

- Safely lifts a boat above its trailer up to 10,000 lbs. (4535 kgs)
- Maximum lifting height of 12" provides enough elevation to prepare and paint the bottom
- Mounts to the frame of trailers with beam dimensions of 2" - 3" wide and 4.5" - 5.75" high
- Complete system includes four Acme threaded jacks, mounting plates, mounting hardware and two handle extensions for additional leverage
- Weight: 135 lbs. (61 kgs)

"Brownell #BL8 Boat Lifts have allowed us to lift boats beyond the capabilities of our marine forklifts. A great alternative to a mobile hoist and at a fraction of the cost."

Brandon
York Harbor Marine

BL3 SYSTEM LIFTS UP TO 12,000 LB. BOAT

- SWL 3,000 lbs. (1360 kgs) per jack
- Powered by hydraulic jacks for smooth and easy operation
- Complete system utilizes four jacks
- Adjustable base and arm

**BL3
HYDRAULIC
BOAT LIFT**

Weight: 263 lbs. (120 kgs)

FULL SYSTEM IS FOUR JACKS (sold individually)

- Safety pins for added protection
- No-flat 10" tires and hand grip for easy mobility
- Lifting range 20" - 50" (51 cm - 127 cm)

+ AIR

**BL3AIR
AIR-POWERED
BOAT LIFT**

Weight: 300 lbs. (136 kgs)

- Air over hydraulic operation allows one person to operate four lifts simultaneously with a standard (not included) manifold.
- 25' Air Hose Included
- Recommended air supply 120 PSI with minimum 20-gallon storage tank.

BL8 SYSTEM LIFTS UP TO 30,000 LB. BOAT

- Strongest and most versatile lift available
- SWL 8,000 lbs. (3628 kgs) per jack
- Powered by hydraulic jacks for smooth and easy operation
- Safety Pins for added protection
- No-flat tires and hand grip for easy mobility
- Adjustable base and arm with two arm positions
- Full capacity for entire lifting range 18" - 64"

**BL8
HYDRAULIC
BOAT LIFT**

Weight: 383 lbs. (210 kgs)

FULL SYSTEM IS FOUR JACKS (sold individually)

- Capacity at horizontal extension:
 - 8,000 lbs. at 10"
 - 6,000 lbs. at 14"
 - 4,000 lbs. at 18"

+ AIR

**BL8AIR
AIR-POWERED
BOAT LIFT**

Weight: 420 lbs. (227 kgs)

- Air over hydraulic operation allows one person to operate four lifts simultaneously with a standard (not included) manifold.
- 25' Air Hose Included
- Recommended air supply 120 PSI with minimum 20-gallon storage tank.

SHOP EQUIPMENT

In addition to a full line of boat storage and handling products, Brownell Boat Stands & Equipment manufactures a variety of accessories and equipment that will make your shop or yard operations safer and more efficient. From outboard and stern drive racks to stern drive installers and a handy material dispensing dolly, Brownell has the tools you need to streamline your operations. All carry a weight rating for safety. All engine racks feature phenolic wheels.

"We are the largest dry-storage facility in California. We have survived earthquakes and gale force winds and have never lost a boat in our yard. We credit our safety record to our professional staff and the exclusive use of Brownell Boat Stands."

THE BROWNELL SEVEN STANDARDS OF QUALITY

Only first-rate American steel

60 years of perfected manufacturing techniques

All products carry a certified safe working load

Precision Acme #4 threads

Daily redundant quality control

7-ply marine-grade plywood

Highest-quality casters

OBR1 OUTBOARD MOTOR RACK

- Designed to hold multiple small and medium motors up to 150 HP each
- Capacity: 2000 lbs. (907 kgs)
- Dimensions: 53" x 24" x 45" (135 cm x 61 cm x 114 cm)
- Weight: 165 lbs. (74 kgs)
- Locking casters

OBR2 LARGE OUTBOARD MOTOR RACK

- Designed for the industry's largest outboards
- Features standard bolt-on pattern
- Battery tray and handle bars for convenience
- Combination of swivel (w/brakes) and rigid casters for easy maneuvering
- Capacity: 1,200 lbs. (544 kgs)
- Dimensions: 36" x 28" x 52" (91 cm x 71 cm x 133 cm)
- Weight 105 lbs. (48 kgs)

SDR1 SINGLE UNIT DRIVE RACK

- Ideal for outboard lower units or stern drives
- Capacity: 500 lbs. (227 kgs)
- Dimensions: 24" x 22" x 17" (61 cm x 57 cm x 43 cm)
- Weight: 53 lbs. (24 kgs)

SDR4 FOUR-UNIT DRIVE STORAGE RACK

- Ideal for outboard lower units or stern drives
- Capacity: 2,500 lbs. (1134 kgs)
- Dimensions: 49" x 24" x 22" (124 cm x 61 cm x 56 cm)
- Weight: 139 lbs. (63 kgs)

SWD1 DISPENSING DOLLY

- Convenient, mobile rack for dispensing a variety of rolled materials, e.g., shrink wrap, fiberglass, carpet, headliner and more
- Holds four 200 lb. rolls
- Dimensions: 72" x 36" x 48" (183 cm x 91 cm x 122 cm)
- Weight: 208 lbs. (94 kgs)

SD3 HEAVY DUTY DRIVE JACK

- Ideal for outboard lower units or stern drives
- Adjusts on three axes for easy installation or removal
- Cart handle provides easier maneuverability and additional leverage
- Capacity: 500 lbs. (227 kgs)
- Weight: 165 lbs. (74 kgs)

STAND TOPS

Various sizes and styles of Brownell Acme threaded stand tops are available.

They can be used to fabricate your own trailers or cradles, or replace older stand tops. Made from solid American steel, the precision cut Acme threaded rod is adjustable under load, allowing for secure storage. It is unthreaded at the bottom for safety and features a durable steel handle for adjusting the height.

All tops have a 1-7/16" O.D. rods and carry a 20,000 lb. (9,100 kgs) safe working load.

The OTOP, GTOP, BTOP, and MBXTOP feature a 25-degree swivel to conform to the hull. The other tops are fixed and do not swivel.

REPLACEMENT PADS (FASTENERS INCLUDED)

OPLY **3/4" PLYWOOD PAD**

- 12" x 12" 7-ply marine-grade plywood
- Painted for long life
- Pre-drilled for easy installation
- Packed five per box

TLCPAD **PLASTIC AND TPE PAD**

- Plastic pad with thermoplastic elastomer
- Provides TLC for additional protection of hull
- Sheds water and eliminates scuffing from grit
- Provides good traction/grip

27" STANDTOPS (FITS ALL STANDS OTHER THAN LISTED BELOW)

OTOP
ORANGE FLAT TOP

- Rod Length: 27" (70 cm)
- Weight: 18 lbs. (8.0 kgs)

OVTOP
ORANGE V TOP

- Rod Length: 27" (70 cm)
- Weight: 16 lbs. (7.3 kgs)
- 3" deep

OWV
ORANGE WIDE V TOP

- Rod Length: 27" (70 cm)
- Weight: 20 lbs. (9.1 kgs)
- 6" deep

OTOP6
ORANGE FLAT TOP

- Rod Length: 27" (70 cm)
- 6" x 12" pad (15 cm x 30 cm)
- Weight: 18 lbs. (8.0 kgs)

MBXTOP
MEGA STAND FLAT TOP

HEAVY DUTY

- 25 ton SWL
- Overall Length: 25"; Rod Diameter: 2"
- Oversized handle for greater leverage and easier adjustment under load
- Weight: 31 lbs. (14 kgs)

23" STANDTOPS (FITS MB3, SB4 AND W1)

GTOP
GREY FLAT TOP

- Rod Length: 23" (60 cm)
- Weight: 15 lbs. (6.8 kgs)

GVTOP
GREY V TOP

- Rod Length: 23" (60 cm)
- Weight: 14 lbs. (6.4 kgs)
- 3" deep

GWV
GREY WIDE V TOP

- Rod Length: 23" (60 cm)
- Weight: 18 lbs. (8.2 kgs)
- 6" deep

16" STANDTOPS (FITS MB4 AND W2)

BTOP
BLUE FLAT TOP

- Rod Length: 16" (41 cm)
- Weight: 13 lbs. (6.0 kgs)

BVTOP
BLUE V TOP

- Rod Length: 16" (41 cm)
- Weight: 11 lbs. (5.0 kgs)
- 3" deep

BWV
BLUE WIDE V TOP

- Rod Length: 16" (41 cm)
- Weight: 16 lbs. (7.3 kgs)
- 6" deep

KEEL STAND TOPS

KTOP - KEEL STAND
FLAT TOP

- Rod Length: 13" (33 cm)
- Weight: 11 lbs. (5.0 kgs)
- 5" square top
- Fits K4

KVTOP
KEEL STAND V TOP

- Rod Length: 21" (54 cm)
- Weight: 17 lbs. (7.7 kgs)
- 6" deep V
- Fits KS1 and KS28

KFTOP
KEEL STAND FLAT TOP

- Rod Length: 23" (60 cm)
- Weight: 14 lbs. (6.4 kgs)
- 5" square top
- Fits KS1 and KS28

PVTOP
PONTOON V-TOP

- Rod Length: 16" (41cm)
- Weight: 20 lbs. (9.0 kgs)
- Fits any motorboat stand base
- Dimensions: 16" x 6" (40 cm x 15 cm)

TRAILER COMPONENTS

Brownell manufactures two products for building trailers or cradles. One utilizes stand tops with the addition of a set screw in the handle to prevent possible loosening due to road vibration. They are inserted into the existing upright tubing of the trailer or cradle. Secondly, Brownell manufactures two sizes of wedge stands, which are commonly u-bolted to a trailer frame or fastened to a wood beam. The two sides of each wedge stand differ in length for greater versatility.

"We thought that boat stands were boat stands. We experienced a few failures and accepted it as par for the course. However, upon discovering Brownell's boat stands and their solid steel rod we realized that we had probably been buying knock offs and it's actually Brownell that sets the standard. Our PREVIOUS stands were not meeting what our expectations should have been."

TRAILER TOPS WITH LOCKING ADJUSTMENT

OTOPT GREY LOCKING TOP

- Rod Length: 27"
(70 cm)
- Weight: 18 lbs.
(8.2 kgs)

GTOPT GREY LOCKING TOP

- Rod Length: 23"
(60 cm)
- Weight: 16 lbs.
(7.3 kgs)

BTOPT BLUE LOCKING TOP

- Rod Length: 16"
(41 cm)
- Weight: 13 lbs.
(5.9 kgs)

Can be ordered with TLC pad by adding "TLC" to part number, e.g., OTOPTTLC

WEDGE STANDS

W1

- Two Usable Positions
- Height: 22" - 56"
(40 cm - 102 cm)
- Weight: 35 lbs. (15.9 kgs)

W2

- Two Usable Positions
- Height: 15" - 38"
(27 cm - 69 cm)
- Weight: 23 lbs. (10.4 kgs)

"I have been using Brownell Boat Stands for over 25 years. When I consider the confidence my customers place in me to safely store their boat, I can't place my confidence in any stand other than a Brownell."

Rich Larsen
